

MICHIFUKU (IMP USA)

HB: IMUFM1615 Born: April 08, 1992

His sire, Monjiro (DG 0.87 kg, BMS +3.3) is an excellent sire who received a honourable prize in the Fukushima Zenkyo Competition and his calves have received excellent demand in the market for his offspring's meat qualities. His grand sire is Tanishige (DG 0.92 kg, BMS 3.1, Yield Grade 72.7%) who was produced with the inbreeding of Tajiri decent. Tanishige's high rating in yield grade shows an excellent performance to his abilities as being a meat producer. From his well balanced extended pedigree, Michifuku would be an all round genetic combination of high meat quality, body development and fertility.
